ROAD AGENT'S REPORT

For the Year Ending December 31, 1972

This year, during the winter months, freezing rains with icy conditions were the biggest problem. There was only one major snow storm.

During the Spring months, a concentrated effort was made to repair all dirt roads damaged by the winter. Grading was done and gravel hauled on the following roads: Case Road, Mitchell Road, Gile Road and Kennard Road.

In the Spring, two weeks were spent repairing pond roads. All pond roads were graded, and gravel hauled as needed. The pond roads had to be scraped more often, and more gravel was necessary this year.

Culverts were installed on the following roads: Gile Road, two culverts, Poor Farm Road, one culvert and one on a pond road.

The T.R.A. and Duncan Fund monies were spent on Smoke Street and Stepping Stone Road, also Kelsey Bridge. Three thousand, two hundred feet of tarred surface was added on Smoke Street. Stepping Stone Road was improved by cutting back the banks, hauling gravel and resurfacing. The distance tarred on Stepping Stone Road was twelve hundred feet.

An extension was added to the Kelsey Bridge on Mill Pond Road. This extension increased the bridge by eight feet. The bridge was then resurfaced, thus eliminating a major hazard.

Seal coating involved two miles of existing tarred roads. The following was accomplished: part of Deerfield Road, Hall Way and Church Street.

This year a new town truck was purchased. It has been a great help. The Highway Department and your Road Agent

greatly appreciate this addition, and would like to thank the voters for their consideration.

I would like to express my thanks and appreciation to the men that have helped me this year. Their help made my projects successful. My thanks to the Selectmen for their support during this year.

Respectfully submitted,

JOHN T. FERNALD, JR.,
Road Agent

ANNUAL REPORT OF LIBRARY TRUSTEES

This year we are pleased to report that the late Charlotte Blaisdell has very generously left to the Town of Nottingham the sum of $30,000.00 to build a public library as a memorial to her and her husband, Henry Blaisdell. A committee composed of selectmen, library trustees and representatives of various town organizations has been formed and is working on plans.

The present town library is outgrowing its space in the school building but in spite of small quarters it has added many new books to its collection. One of the most notable of these is a reprint of Cogswell's "History of Nottingham, Northwood and Deerfield".

Saturday	2:00 to 4:00 p.m.
Tuesday (School)	8:30 to 11:30 a.m.
Wednesday (School)	8:30 to 11:30 a.m.

FIRE CHIEF'S REPORT

The Nottingham Volunteer Fire Department had very few calls the past year for which we were fortunate. The department answered ten calls in 1972, three were structual, one chimney fire, one electrical fire, three flooded oil burners, two forest fires and one Mutual Aid to assist Northwood Fire Department.

Mutual Aid calls went out to the Raymond Fire Department and Deerfield Fire Department to assist us in two structural fires.

To report a fire dial 679-5757.

Fire Chief Gary Chase 679-5936.

Forest Fire Warden John Fernald, Sr. 679-8802.

The department held its elections in May with the following results:

Chief: Gary Chase
Captain & Secretary: Robert Harmon
First Lieutenant: George Myers
Second Lieutenant & Treasurer: John Fernald, Jr.
Third Lieutenant: Ronald Chase

I would like to thank all who donated both time and services which helped make our Fourth of July Celebration a big success.

The meetings are held the first Tuesday of each month. This is your department, it is open to anyone and you are welcome to belong or just to come and visit.

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

In New Hampshire, forest fire control is a cooperative State-town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegal and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town except backyard cooking fires. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9 a.m. and 5 p.m. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disastrous and devastating force. Only you can prevent a forest fire.

REPORT OF THE PLANNING BOARD

During 1972, in addition to the regular monthly meetings and the necessary hearings for proposed subdivisions, the Planning Board conducted four public hearings to discuss the proposed amendments to the Zoning Ordinance and Building Code Regulations. All of the amendments (six to the Zoning Ordinance and 2 to the Building Code Regulations) were accepted by the voters at the November election.

Also during 1972 we took all the appropriate steps to acquire the power to adopt subdivision regulations. Subsequently, we held a public hearing for the proposed subdivision regulations, and adoption of them followed on January 12, 1973.

As a result of the public hearings held this past year, it is obvious that most people either do not care or have too many other things to do to attend the regular and/or special meetings of the Planning Board. These meetings are held for your benefit to give you a chance to express your opinion. Many times people complain because they do not like the changes being proposed. However, very often these people are the very ones who did not care enough to come to the hearings. Anyone is invited to attend any of the regular or special meetings and express his opinion, pro or con. It is only with your cooperation and opinions that the Planning Board can act on your behalf. We do not know what YOU want unless YOU tell us.

Our regular monthly meeting is held the third Thursday at 8:00 p. m. at the school.

Respectfully submitted,

THOMAS L. SWEENEY,
Chairman

REPORT OF THE CONSERVATION COMMISSION

During the past year the Conservation Commission was reorganized with five new members joining the group. The commission has started an index of the town's natural resources which it hopes to have completed by the fall of 1973. Included in this index will be the locations of the town boundary markers and locations of flood plains and wet lands. Hopefully water tests can be taken this spring and summer by the commission from some of the town's rivers and ponds. This information will also be included in the index.

The Commission studied the New Hampshire Scenic Road Law and as a result we are asking the Town Meeting to designate Poor Farm Road and Ledge Road scenic.

The Conservation Commission has been maintaining the Town Beach at Drowns Dam. This year the Commission hopes to improve the beach, making it a safer, more pleasant place to swim.

The Conservation Commission meets on the third Tuesday of each month. Guests are always welcome.

REPORT OF THE CHIEF OF POLICE

The following is an activity report to the townspeople by the Police Chief for the year ending December 31. 1972.

At this time I would like to express my appreciation to Officer William Pevear and Officer Gary Chase, who was appointed to the department the past year, for their faithful service.

During the past year we attended school that was sponsored by the Rockingham County Sheriffs Department.

At this time we have received two new radios that were purchased by the county and the Governor's Commission on Crime and Delinquency and are expecting a third mobile and base radio through the third phase of this program.

During 1972 we answered approximately 300 complaints. There were 15 automobile accidents investigated. There were 12 house breaks and 11 camp or summer home breaks, 4 stolen cars reported or recovered, 4 snowmobile complaints reported to this department.

There were 15 dog complaints answered. We located 10 lost or missing persons during the past year.

A total of 17,000 miles and 1,719 man hours used in providing police coverage.

In closing I would like to thank the Sheriff's Department, New Hampshire State Police for their help and cooperation during the past year.

Respectfully submitted,

BENJAMIN J. DEBUTTS,
Chief of Police

ANNUAL REPORT
RURAL DISTRICT HEALTH COUNCIL
January 1, 1972 thru December 31, 1972

The Rural District Health Council is continuing to provide comprehensive health services to the member towns: Northwood, Nottingham, Deerfield, Barrington, Strafford, New Durham and Middleton. The nurses provide visiting nurse services as ordered by the physicians, and physical, occupational and speech therapy is available through a contractural agreement with the Portsmouth Rehabilitation Center. There is an active Family Planning program for anyone interested.

The Well Child Clinics continue to be a very important part of the program. Monthly clinics were held at the Deerfield Community Center for preschool children from Northwood, Nottingham and Deerfield with Dr. William Whitney of Exeter as attending physician. The New Durham Community Center is the site for a monthly clinic for preschool children of New Durham and Middleton with Dr. Wendy Tinklepaugh of Amherst, N.H., attending. In August, a new monthly clinic was initiated at the Barrington Congregational Church for preschool children of Barrington and Strafford with Dr. Tinklepaugh in attendance. Physical examinations and immunizations are done at each of these clinics.

In August Mrs. Madeline Sullivan moved from the area and Mrs. Ardala Houle has been employed to fill the vacancy. Miss Arlene Thorne continues in the program with a dedication known to all who have the privilege of knowing her. These two nurses provide excellent care for their patients and their spirit of cooperation is a great factor in the continuing success of the Rural District Health Council.

Recently, the towns of Farmington and Milton have expressed interest in joining the Rural District Health Council.

This is to be acted upon at their town meetings. The Council representatives are also investigating the possibility of locating the office in one of the member towns and establishing the agency independent of the Portsmouth Rehabilitation Center. With the continued expansion of the Council, the coming year could prove to be a busy one for all involved in the program.

The Rural District Health Council has been supported by the funds contributed by the towns at a rate of $1.00 per capita, a state grant and fees for service.

Anyone interested in the program or needing the service is asked to contact Mrs. Cynthia Blood at the Portsmouth Rehabilitation Center, Tel.: 436-5716, or a representative of the Rural District Health Council in his town.

REPORT OF THE 250th ANNIVERSARY COMMITTEE

The 250th Anniversary of the town of Nottingham is now in the past, a part of the ever increasing history of the town.

The celebration of the past year, especially during the weekend of August 18-19-20, was a complete success and we, the committee hope one and all had as much fun as we ourselves did. It was a tremendous undertaking, as we soon found out when we started making plans. There were many phases to be planned and carried out. From the first we wanted to make it a lasting tribute, and many hours were spent to this end.

Talks with other town committees that had celebrated in the past helped a good deal in escaping the pitfalls they had made, and we in turn are prepared to aid other committees in the future.

Plans for the April march to Medford, Mass., were made and the route arranged as near as possible to the original March, and on the day of the March there were many people along the way with encouraging words. At the end of the day there were many sore feet and aching muscles but happiness in accomplishment. The Commemorative Services in May and the Anniversary Ball on May 12, were attended by many people and were a huge success. The Quit-Rent Dance in December was the final event of the year long Celebration.

On the weekend in August everything went smoothly. From the Friday night supper on the Square, through the Band Concert and the Square Dancing. To Saturday's Program of a large and successful Parade and Medal Auction among several events of the day, and through Sunday with its two Church Services and the Flower Show and Chicken

Supper at North Nottingham. Everyone was completely tired out and a much needed rest could be looked forward to by your committee.

The Medal Auction brought record prices for the several sets of Medals sold, and the other Medals sold well and are no longer available. The Souvenir Plates, Mugs, Wooden Nickels and etc., all sold out completely insuring that there would be no cost to the town for this Celebration. The entire amount of money advanced to this committee has been repaid and there still remains some money in the Treasury, which will be mostly spent in some manner that will most benefit the Town.

At this time I would like to personally thank the many organizations and individuals who helped to make this event such a success. The many who participated or helped in the Parade, the March to Medford, Dances, Suppers, Flower Show and other exhibits, the Horse Show, Medal Auction, Carnival, etc. Also all members of this committee who worked long and hard on the Celebration. I especially would like to thank John R. Tuttle for his excellent handling of the Medal committee from designing the Medal to the sale of them this past year. John Perkins for assembling beyond doubt the best Parade in the long history of Nottingham. Mrs. Doris Foss for the design and sale of plates, mugs and the Annual Flea Markets she has organized. Albert DeMeritt for an excellent Program for the three day Celebration. Edward O. Foss for all the paper work of this committee of which there has been an enormous amount. All other committee members who worked long and hard, and all townspeople who helped or attended the many events of the past year. We the committee have enjoyed doing this job and it was an experience we will not soon forget and are very glad we could have been a part of it.

Committee members: John R. Tuttle, Medal; James Kelsey, Treasurer; Edward O. Foss, Secretary; Doris Foss,

Clerk; John A. Perkins, Parade; Albert DeMeritt, Program; John Fernald, Guests; Leroy Batchelder, Grounds; Mary L. Fernald, Entertainment; Marion Colby, Souvenirs; Brad Batchelder, Jr., Exhibits; Mary G. Smith, Refreshments; Forbes Bryce, History; Hazel Ash, Plates and Mugs.

SOLID WASTE DISPOSAL COMMITTEE REPORT

By a motion of theMarch, 1972 town meeting, the Nottingham Solid Waste Disposal Committee was established to study the town's acute solid waste problem. We must cease our present system of open burning by July 1, 1975. In addition to this, our present disposal site is not adequate to meet the impending regulations.

With this in mind, the committee has looked into many various alternatives of disposing of our solid waste. We have looked into a regional sanitary landfill, a town sanitary landfill and a recycling program combined with incineration along with other alternatives. At this point in time, regional sanitary landfill appears to be extremely costly as does a local landfill site. Recycing has a great deal of merit, but it does need cooperation by ALL. Without public participation this effort could be quite fruitless.

In the next year, we are planning public meetings to discuss these various alternatives open to the town. Your attendance is welcomed. Whichever alternative is decided upon, it could well be more costly than what we are now doing.

This committee has been striving to find the most feasably economical and ecological solution for Nottingham. Any interested persons are most welcome to contact any member of the committe regarding any constructive suggestions they may have.

STRAFFORD REGIONAL PLANNING COMMISSION — ANNUAL REPORT 1972

The Strafford Regional Planning Commission, one of seventeen delineated in 1968, is established under State Statute 36:45 which says in part: "the purpose . . . shall be to enable municipalities to join . . . in regional planning commissions whose duty it shall be to prepare a coordinated plan for the development of a region, taking into account present and future needs with a view toward encouraging the most appropriate use of land, such as for agriculture, forestry, industry, commerce, housing, . . . transportation, . . . parks, . . . shorefront development, . . . public buildings, . . . and for the improvement, redevelopment, rehabilitation, or conservation of residential, business, industrial, and other areas, . . . "

The Strafford Region includes all municipalities in the Strafford County plus the towns of Nottingham and Newmarket in Rockingham County. Of this number, Dover, Durham, Lee, Madbury, Newmarket, Rollinsford, and Somersworth, together with Strafford County are official supporting members, i. e., legally entitled to share in the management and services of the Commission and to acquire certain Federal funds available only to Commission members.

During the past year the Commission has completed two major regional studies: "Solid Waste Disposal" and "Open Space". Technical and financial support has been given to recycling efforts, especially in Dover. A pilot recycling proposal from Nottingham has received Commission endorsement and the University of New Hampshire has requested Commission representation in its waste disposal research efforts.

Commission Directors have tried to keep up to date on recent state and federal policies by participating in area meetings on topics such as coastal zone legislation, environ-

mental priorities, natural resource policies, and federal revenue sharing.

Part of the obligation of the Commission is to participate in socalled A95 reviews which consist of monitoring federal funding. Grants in excess of five and a half million dollars going to Dover, Durham, Rollinsford and Newmarket were reviewed and supported. ''Community Viewpoints'', a pictorial presentation of local resources and problems, were prepared for Madbury and Rollinsford.

The Commission notes with sorrow the prolonged illness and eventual death of its executive director, Charles Noyes. They nevertheless continued to meet in regular sessions to carry on the work in progress. The office at 600 Central Avenue, Dover has now been reopened with Silas Weeks, on loan from the University of New Hampshire, serving as director. Plans have been completed for an aggressive program in the coming year and permanent staff will be recruited.

Financial support for the Commission is divided approximately equally between local member communities and the federal government. More detailed reports of the past year's activities and expenditures and the anticipated plan of work and budget for Fiscal 1974 are available at the Commission office.

CIVIL PREPAREDNESS

Defense

1972 has been a banner year. Nottingham has celebrated its 250th anniversary. Our popultion has increased and the Dept. of Civil Defense has been reorganized into the Dept. of Civil Preparedness.

The new "look" emphasizes the need to serve more dirctly in a useful day to day purpose, the people of our community.

Along these directives the Nottingham Civil Preparedness unit has begun this year with the following programs and actions:

- Provided for the town a surplus army truck to be used as a forestry penetration vehicle for fire fighting purposes. This was a no cost item.

- Procured surplus desks and necessary furniture requested for the firehouse. These items were paid for by the Civil Preparedness unit using State alloted funds assigned to Nottingham.

- Requested units from Concord to appear in our parade and on display during our 3-day celebration.

- Arranged to have a tent set up and to provide First Aid to anyone needing same during the celebration.

- Purchased a complete First Aid chest to replace the one used in the school that was vandalized — used during the celebration. All items were in accordance with the suggestions of the Town Nurse, Mrs. Jean Fernald.

- Further arrangements have been made to continue the First Aid Station every year at our 4th of July Celebration.

- Ordered booklets entitled *"What To Do In a Disaster"* for distribution, one to every family.

• Obtained through Concord, a Home Fire Fighting and Fire Prevention Course to be given in our town to all interested. Fire is the one enemy that knows no limits, can strike anywhere, anytime and it is important that the right action when it first starts can often stop, or retard the flames until the fire fighters get there.

• Endeavor to interest the women of our community to attend the following schools:

1. Hunter Safety Course — the use of firearms, when, where and how.
2. Women's Police Auxiliary — final applicants trained in judo-karate, police methods, etc.
3. Archery Course.

• Appointed to the position of Deputy Civil Preparedness Director, Mrs. Judy Doughty. Mrs. Doughty is the first woman to be selected and approved by Concord to serve in this capacity in all of New Hampshire.

• In concluding — the following programs are still in our plans:

1. To procure and convert a van-type truck for use during whatever events or happenings that occur, to help as an emergency wagon or a First Aid Mobile Unit, or a a coffee wagon.
2. To establish a telephone to telephone advance warning system.
3. To establish a siren warning system for our town. Several attempts to acquire such systems have been way-laid by larger towns and cities.

The 1972-1973 School Year has continued the growth and development of the Nottingham School. From an enrollment of 136 with a staff of five teachers only five years ago, the school now has over 180 students and a full time staff of nine. Each grade home room is housed separately and there is a room for the remedial reading classes again. This, indeed, was made possible by the recently constructed addition and the space needs of the Nottingham School should be solved for several years, barring unforeseen growth.

One of the purposes in adding to the size of the school plant was to enable the subjects in the upper grades to be taught by teachers who had more academic training in various areas than the generally trained teacher. This objective has been realized with the successful departmentalization of grades 5, 6, 7, and 8 for mathematics, social studies, science, and English.

New additions to the staff include Mrs. Judith Asselin, with eight years of experience in New Jersey schools, Mr. Robert Gilmore with two years of experience teaching in West Virginia, Mr. Wesley Lavin, who had taught for seven years in various school districts of New Hampshire and Vermont, and Miss Barbara Nichipor, who graduated in 1972. In addition, the district has had the services of Mrs. Katrina Rhodes, who helps with the large first grade and to relieve the Prnicipal for supervisory duties. Mrs. Rhodes is also a trained teacher. With the help of Dale Marden, a

student from the University, a physical education program has been developed and has been favorably received by the pupils.

A major revision in the curriculum has also taken place as the Addison-Wesley Mathematics Series has been adopted to replace the series which had been in use. There is now less strain placed upon the theoretical approach to mathematics and more emphasis on the computative and conceptual aspects of practical arithmetic.

A project now being considered cooperatively with other nearby school districts has to do with Title I of the Elementary and Secondary Education Act. There are some changes which must be implemented in the program. For several years, the remedial reading program in Nottingham has been supported by Title I funds. One condition for obtaining these funds is that after a program has been supported for a maximum of three years, the local district must evaluate it and if it is worth retaining as a part of the system, it must be taken over by the District in order that another program for the educationally disadvantaged may be initiated. Secondly, the New Hampshire Title I Director has issued the following statement which applies here:

> . . . this office would no longer be able to approve what was termed "non-cooperating cooperative projects". The implications of this move are several. Whereas, in the past it has been possible for the several school districts in a cooperative project to conduct separate and distinct Title I activities, this will no longer be possible. It, therefore, becomes obvious that when the smaller districts join together to form a cooperative project, it will have to operate on the basis of shared services for disadvantaged children. . . .
>
> . . . Additionally, we will be seeking justification re-

lated specifically to the local situation explaining why any program of less than $10,000.00 is not being combined. . . .

Therefore, starting in November of 1972, the Districts of Barrington, Northwood, Nottingham, and Strafford, at the invitation of the Northwood Board, began a series of meetings in an effort to cooperate in the interests of these children. Hopefully, by Spring the districts wlil have come to an acceptable solution of a common problem.

The undersigned would like to thank the citizens, School Board, staff and pupils for their fine cooperation in the past and trust that they will continue to merit this support.

Respectfully submitted,

CHARLES H. MORGAN,
Superintendent of Schools

REPORT OF THE NOTTINGHAM SCHOOL BOARD

In order to meet the needs of a growing community a building program was undertaken in the spring of 1972. A four room addition built to state specifications included an air ventilating system, smoke alarm safety feature, emergency lighting system, and paraplegic toilets. In addition the existing septic system had to be improved. Blacktopping around the new wing is planned for completion in the spring of 1973.

The Board, superintendent and assistant superintendent co-operated to interview and select individuals who not only possessed outstanding teaching credentials but had an interest and skill in leading extra-curricular activities. As a result the Nottingham School competes interscholastically in soccer and basketball, has initiated a cheerleading squad, participated in numerous field trips and therefore offered our children a more complete educational experience.

The pilot program of departmentalization of the higher grades achieved favorable results and therefore shall be continued indefinitely.

The School Board has again agreed to send our high school students to Dover for another year and hope that this arrangement will be continued on an annual basis.

School bus policies, concerned mainly with expected behavior were adopted and explained clearly to students and parents, therefore difficulties similar to those experinced in the fall of 1972 should not reoccur.

To meet the specific needs of many members of the community the School Board integrated the following programs and new services, a state sponsored speech therapist, University of New Hampshire Television Network Broadcasts, University of New Hampshire practice teachers, and the Great

Bay Training Center. We are also projecting a Title I Special Services Program and a library that will meet state specifications.

With community interest and support we hope to continue to provide the best possible education for our young people.

PRINCIPAL'S REPORT

The year 1972 was one of growth and change for the Nottingham Elementary School. We shall continue in our efforts to grow, progress and change, in accordance with the needs of our school and community.

The new addition to the school was completed in 1972. This consisted of four classrooms with wall to wall carpeting, two supply closets, and two bathrooms. The entire new wing is electrically heated. This addition has made it possible to eliminate all double graded classrooms. The old wing was painted and repaired as needed. The new addition has also enabled the school to use the remedial reading room for its intended purpose, rather than a classroom.

Due to the enrollment of thirty children in the first grade, a teachers-aide was hired. This teacher is in the first grade in the morning only. In the afternoon, the teachers-aide is in the eighth grade enabling Mr. Karacas to perform his duties as principal.

A physical education program has been initiated for grades five through eight, with the help of students from U.N.H. With the addition of physical education to the existing music and art programs the administration feels that the children are being exposed to a liberal amount of physical, creative and enjoyable activities.

A very welcome addition to the music department was a new piano which was donated by the Nottingham P.T.O. We have also added a new television to the audio-visual department, and a new thermo copying unit which was purchased for the school.

The administration appreciates the work done by all during 1972. We hope that the upcoming year will again prove to be a cooperative effort aimed at "educating children".

Respectfully submitted,
CHARLES KARACAS
Principal

SCHOOL HEALTH REPORT

To the Superintendent of Schools:

During the year 1971-72, the routine Health Program was carried out. Each student received a general physical examination. Each student received an audio test, and a visual test. Parents were notified of an existing problem, when apparent.

A dental clinic provided by the New Hampshire Bureau of Dental Public Health, the Nottingham Woman's Club contributing the matching funds, benefited 20 children in grades 1 through 3. The following was accomplished.

Fillings of Deciduous and Permanent teeth	56
Extractions of Deciduous teeth only	25
Prophylaxis	11

The health education films presented during the year were on dental care, nutrition, and physical fitness. The girls in grades 5 through 8 were shown the film, "The Story of Menstruation".

The 8th grade met to discuss the current problems of physical and mental health as they applied to the Junior High School Student.

Referrals were made to the following:

The New Hampshire State Department of Education
Portsmouth Rehabilitation Center
Rural District Health Council
New Hampshire Dental Public Health
Exeter Clinic

Home visits were made when indicated.

I wish to thank Mr. Morgan, the School Board, the Principal and Staff, and the parents for their cooperation.

Respectfully submitted,

JEAN B. FERNALD, R.N.
School Nurse

REPORT OF THE TRUANT OFFICER

To the Superintendent of Schools:

The 1972 School year presented an increase of letters to be delivered to parents. These letters were authorized by the School Board.

On three occasions, when a student left school without permission, they were located and returned to class.

I wish to express my appreciation to the School Board, the Teaching Staff, and the parents for their cooperation.

Respectfully submitted,

JOHN T. FERNALD
